

The Watershed Approach to Landscaping

A CLASS FOR HOME GARDENERS & LANDSCAPE PROFESSIONALS

Saturday, December 10, 2016 • 9am - 5pm,

San Jose Conservation Corps & Charter School, 1560 Berger Drive, San Jose, CA

design: Huettl & IRI

photos: Jude Parkinson-Morgan

design: Linda Middleton, APLD

Water conservation is no longer just about “losing the thirsty lawn” and reducing irrigation. Join us to find out how to create drought resilient landscapes that conserve water, reduce pollution, invite habitat, and are just plain gorgeous!

Lunch is included with this affordable class, with a \$10 registration fee to offset the cost of food and beverage.

morning session: Watershed Basics

Learn to create gardens that thrive in our local climate, use resources wisely, and look beautiful all year round:

- See your garden as a mini-watershed
- Create *Living Soil* that holds onto water
- Treat rainwater as an abundant resource
- Remove unwanted turf without using chemicals
- Select the right plant for the right place
- Manage irrigation to eliminate waste and runoff

This class is made possible by:

The California Native Garden Foundation

afternoon session:

Hands-on Landscape Design

This interactive workshop helps you design a successful Watershed Wise landscape. Learn how to:

- Contour the landscape for maximum rainwater capture
- Create a list of climate appropriate plants
- Place plants on a property plan according to water needs and key design principles

Advanced registration required & space is limited.
