

# LOS ANGELES

**FREE** California Friendly Landscape Classes  
and Landscape Design Seminars

Watershed  
Wise  
Landscapes

Join us for a morning of landscape education and design using the Watershed Approach. Learn how this approach creates gardens that thrive in our local climates, use resources wisely, and look beautiful all year round. Topics include understanding the watershed, building healthy soil, capturing rainwater, and selecting climate appropriate plants. Then explore the steps to successfully designing the landscape to capture rain.

**Wednesday, November 16, 2016**

10:00 am - 1:00 pm

**Eagle Rock Elementary**

2057 Fair Park Ave

Los Angeles, CA 90041

Register

The event is free, but registration is required. A confirmation will be sent with more information and parking instructions.
