

# ECO GARDENER WORKSHOP

Co-Sponsored by City of Torrance and WRD

**WHEN:** Sat., Oct. 12, 2024  
10 a.m. - noon

**WHERE:** Madrona Marsh Nature Center  
3201 Plaza del Amo  
Torrance, CA 90503

## Rainwater Capture

It's not about how much rain falls from the sky, but how much rain your landscape can hold on to. This workshop focuses on nature-based solutions for passive and active capture of rainwater in your landscape. Discussion includes selecting a site-appropriate rainwater capture method, designing swales and berms, and directing water into and out of rain gardens.

Our knowledgeable instructors will guide you through sustainable gardening practices while answering all your questions!

Please arrive 10 minutes early to get signed in and seated for the class. This class also includes an optional 20-minute site walk around the Nature Center to discuss concepts from the class.
