

# Climate-Ready Landscape Academy

From

# If You Have Questions

**Expand on existing programs.**

**Empower people to build true climate resilience.**

# OUR INNOVATIVE APPROACH

## Created by Trusted Providers

G3 has more than 15 years experience teaching for understanding with innovative and fun landscape transformation workshops and learning materials using the Watershed Approach.

## Special Design Considerations

Includes small spaces, shade, hillsides, fire resilience and more.

## Expanded Topics

Explores new topics like compost, gray water, reclaimed water, and edible gardens.

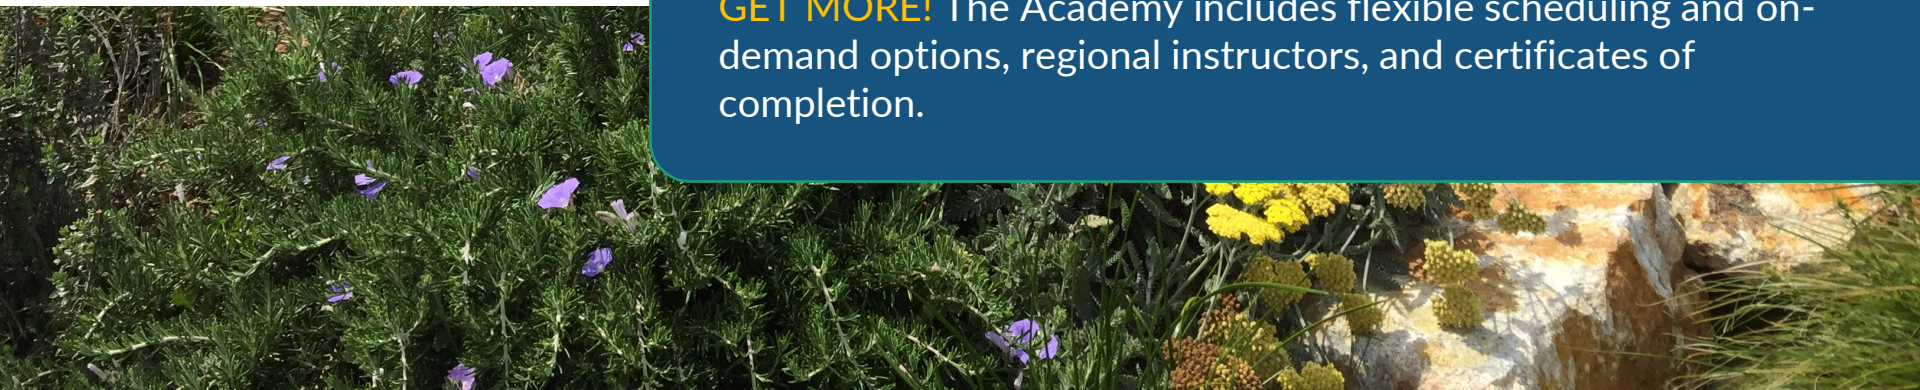

## Turnkey Service

G3 manages registrations, provides highly-trained instructors, customizes presentations and workbook with regional content, and follows up with reporting.

## Addresses Overlooked Issues

Discusses budget concerns, what to do if you want to keep lawn, and working with conventional landscapes to make changes slowly.

**GET MORE!** The Academy includes flexible scheduling and on-demand options, regional instructors, and certificates of completion.

  - Checklists and shopping lists
  - Resources
- 
- **Agency logo(s) on cover**
  - **Some local customization when whole class series is purchased**

# All Classes Incorporate the Watershed Approach

# Design a New Landscape Without Starting Over

*90 minutes*

## Special Considerations

Promotes change over time.

Highlights designing defensible spaces for fire or flood.

Provides practical ideas that can be implemented by DIY.

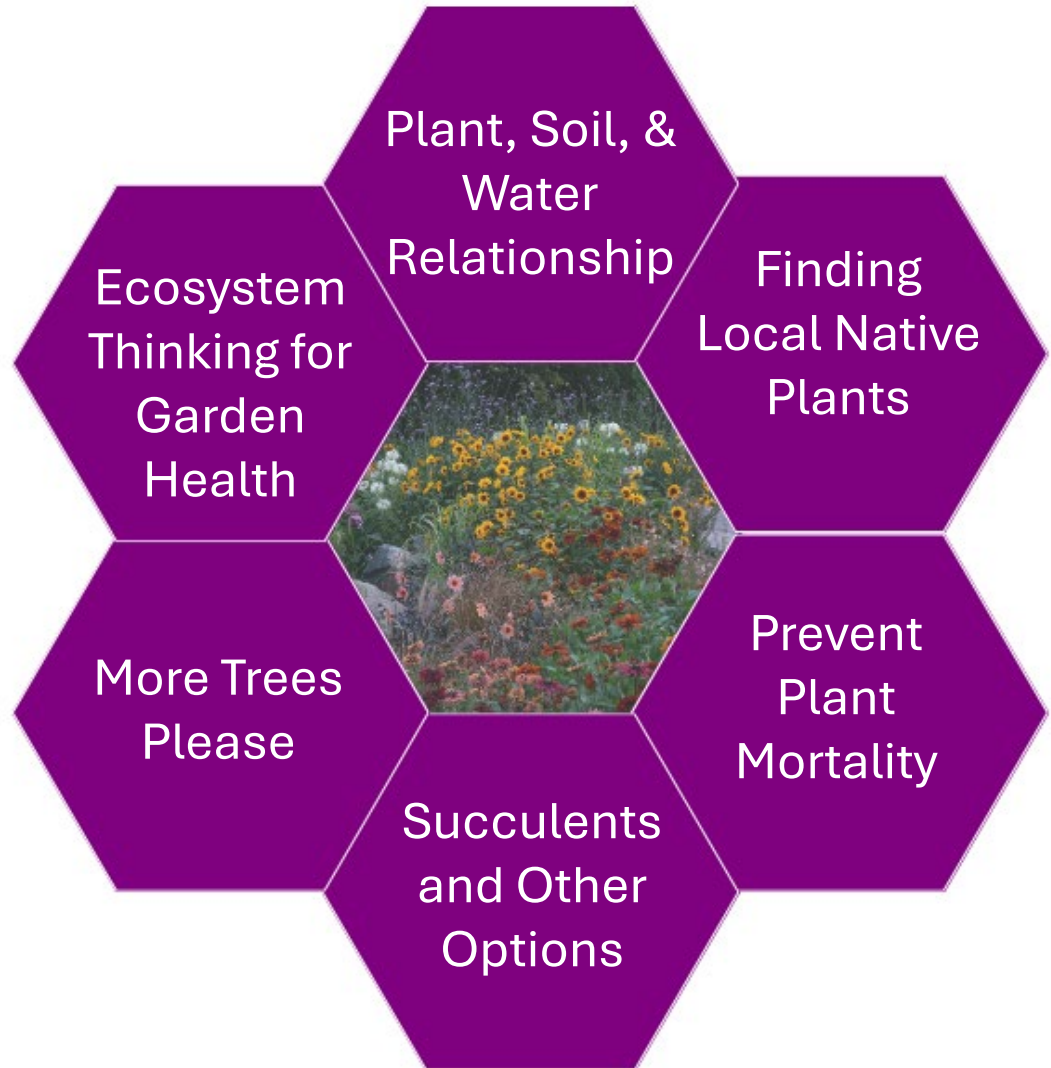

# Select Climate Ready Plants Like a Pro

*60 minutes*

## Special Considerations

Understand how plants work together to change their own environment.

Promote your inner green thumb to select plants and keep them thriving.

# Healthy Soils and Edible Gardens

*60 minutes*

## Special Considerations

Promotes understanding of the microbial helpers in soil.

Provides practical ideas for making and using compost and growing edible gardens.

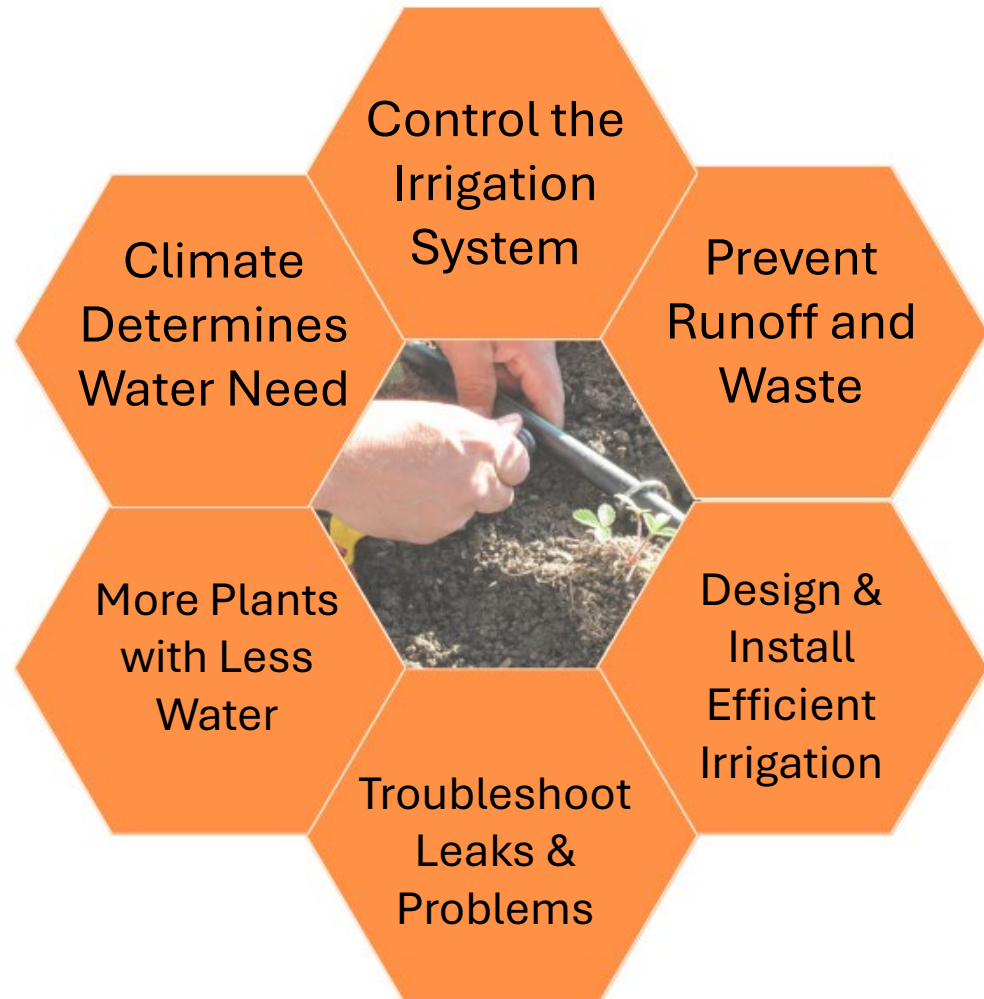

# Landscapes Need Water: Just Not Too Much

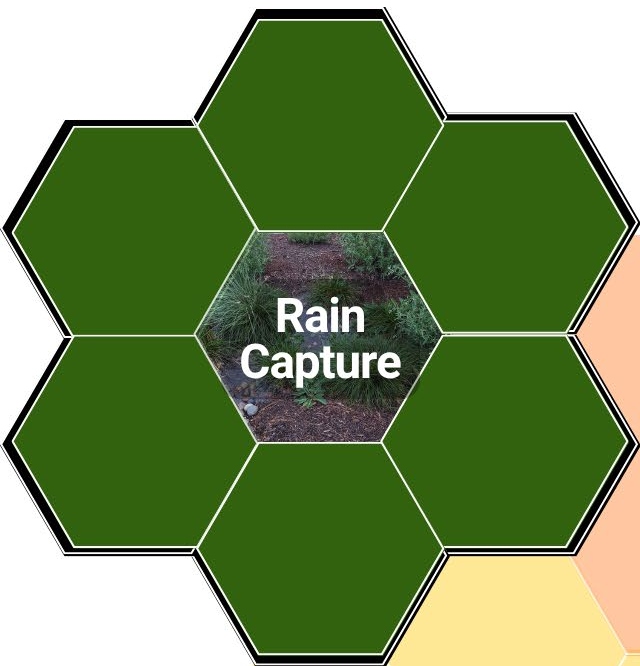

*60 minutes*

## Special Considerations

Understand your irrigation and how plants work together so you can water just the right amount.

Promote the beneficial use of water in the landscape and reduce water waste.

**Rain  
Capture**

**Irrigation**

**Plants**

**Design**

**Soil**

**Budget**

# Use Rain, Gray and Reclaimed Water

*90 minutes*

## Special Considerations

Keep rain in the landscape first, and add other non-potable sources as needed.

Promote practical solutions to typical rain, gray, and recycled water challenges.

# Landscape Installation for Every Budget

*60 minutes*

## Special Considerations

Empower people to make choices about how they invest in their landscapes with practical ideas.

Provide alternatives to lower the cost of a landscape transformation.

# HOW IT WORKS

Contact us for more info:

[Classes@G3LandscapeAcademy.com](mailto:Classes@G3LandscapeAcademy.com)

[www.ClimateReadyLandscapeAcademy.com](http://www.ClimateReadyLandscapeAcademy.com)

Potential Hosts connect with G3:

- Program can be run by an individual agency/organization.
- Multiple agencies/organizations can collaborate to offer the program.
- Discounted pricing for purchases of three or more classes in the series.
- Workbook customization when whole series is purchased (6 classes).
- Flexible scheduling – mix or match in-person live, webinars, or on-demand options.

G3 takes care of the rest.
